

## Vista

The Vista offers range of sizes that allows you to fill your feature wall with beautiful dancing flames. The Vista is available in various sizes up to 2.34 metres and features a contemporary Greek Dolomite marble chip fuel bed that it looks as good without the flames as it does with.

The panoramic view of the Vista is undoubtedly the main feature of this appliance but the very reliable high quality Mertik GV 60 full sequence remote control valve, which offers the latest in safety and dependability, fitted as standard gives both convenience and safety to this truly awesome feature fire.

The Vista comes in 3 standard burner area sizes and can be purchase either as a burner that can be installed into your own purpose made opening to decorate to your own style or in a plain box with or without a four sided brushed stainless steel trim.
