

Quattro Classic II

The Quattro Classic II is a complete Hole-In-The-Wall appliance based on the popular Classic II burner and is ideal solution for smaller rooms.

The Quattro Classic II is available with a wide range of fuel beds to suit any tastes but always has a wealth of wonderfully rhythmic fluttering flames.

The Quattro has a plain steel construction box and comes with a fascia that is available in a variety of finishes. With a pumice fuel bed and either a high quality barrel valve as standard or the Mertik GV60 full sequence remote control; this appliance comes with a number of additional fuel bed options and fascia colours to customise the appliance to suit any home.

Quattro Classic II Features:

- Emergency off switch (GV60)
- Oxy depletion pilot to ensure safe operation
